**ITS USES ARE LIMITED
ONLY BY YOUR IMAGINATION.**

For over one hundred years, the Victorinox® Original Swiss Army™ Knife has been making history. It helped explorers reach the North Pole. Traveled with the team that conquered Mt. Everest. And now, accompanies NASA on every mission into space. No other tool inspires the imagination in quite the same way.

Made in the village of Ibach, Switzerland, it has been a symbol of quality and versatility since it was introduced to the Swiss army in 1891. Today, there are dozens of models and over forty different tools, meticulously crafted using the finest stainless steel.

Whether traveling into the heart of the Congo, or the backyard for a barbecue, Victorinox® Original Swiss Army™ Knives excel in every situation. All designed for a multitude of functions. Including many we haven't even thought of.
